ADVIA Centaur XPT/XP/CP Immunoassay Systems

Siemens Healthineers unites innovative workflow solutions with clinical excellence in the ADVIA Centaur® family of systems, leading to greater laboratory productivity to stay ahead of increasing workload demands.

- Drives reliable results with the sensitivity and specificity you expect of chemiluminescence using Advanced Acridinium Ester Technology
- Simplifies laboratory operations even more with connection to Siemens Healthineers automation* and IT solutions
- Standardizes within your network using the same ready-to-use reagents across all ADVIA Centaur Systems

ADVIA Centaur XPT and XP Systems

Engineered for continuous operation and timely, accurate results, the high-performance ADVIA Centaur® XPT and XP Systems are always ready to stay ahead of increasing workflow demands. Their extensive onboard reagent capacities and dedicated STAT capabilities increase productivity, regardless of volume or types of tests.

ADVIA Centaur CP System

The ADVIA Centaur® CP System is a mid-volume benchtop system that enhances your in-house test capabilities. With its broad menu and short turnaround times, you can do more—without compromising efficiency, productivity, or quality.
